HOTELS

WORKSPACE

Hurst has been delivering excellence in all aspects of interior fit out and refurbishment projects for nearly half a century. After an industry wide downturn we are now entering a period of strong growth and development with the focus on our key founding values of delivering quality, timely projects and building strong and lasting client relationships.

Still family owned today, Hurst has developed over time into a unique collection of businesses that can each deliver its services in isolation or as a collective covering all aspects of interior fit out and refurbishment. This includes the following specialist services: bespoke joinery, mechanical & electrical, ceilings and flooring and performance door sets.

We have worked with an extremely varied range of clients in the past including many of the top names on the high street. We are proud to still be working closely with Vision Express, Marks and Spencer and Mamas and Papas and to have welcomed new clients IKEA, Holland and Barrett and Wyevale Garden Centre Group. We are now keen to expand our client base and to broaden our experience in the leisure, education and workspace sectors.

Please take a moment to browse through the following pages to see the complete range of services we offer and some of our most recent key projects.

YORKSHIRE BUILDING SOCIETY

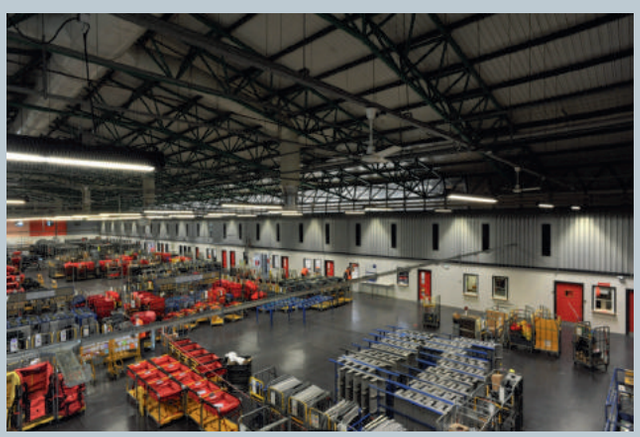
Royal Mail Delivery Office, Cambridge

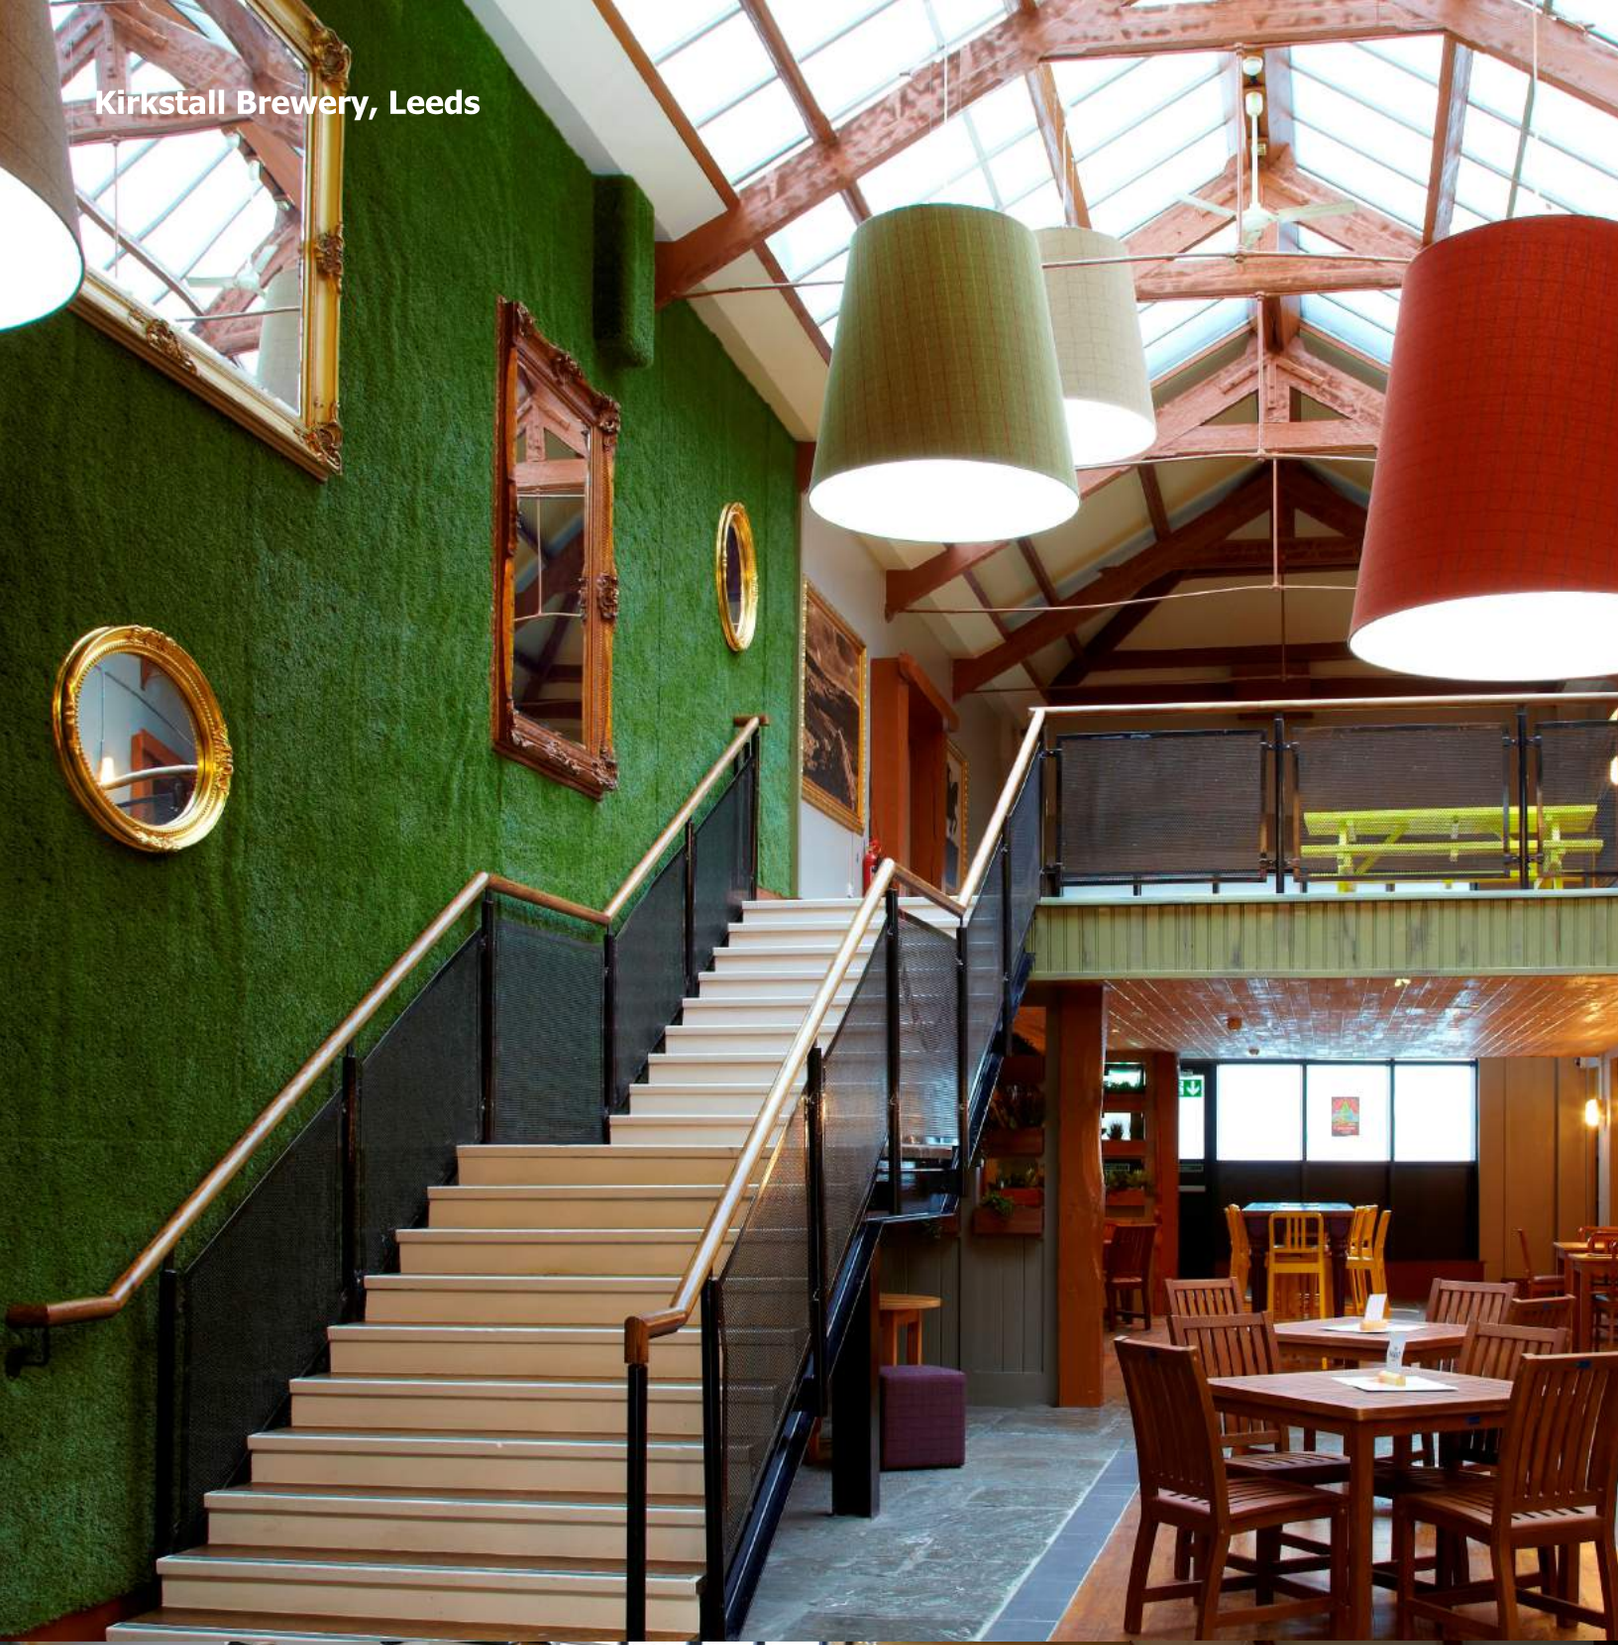
Principal Contractor

Hurst has the capability to undertake projects ranging from £50k to £2mill. Fully managing our own internal supply chain and with a strong team of key external suppliers and specialist subcontractors we will ensure you have complete peace of mind.

From the outset you will be assigned your own dedicated **Project Team** including a highly skilled and experienced Site Manager, Foreman and Quantity Surveyor, holding all relevant Health and Safety qualifications. They will manage the project from start to completion and with a collaborative and flexible approach they will ensure we deliver the best solution for your specific needs.

With extensive experience and understanding of the constraints of working within different environments from **educational establishments** to **airports** and **office workspaces** and a key focus on site management, cleanliness and security you can rest assured your project will be delivered as effectively as possible.





Kirkstall Brewery, Leeds

Michelin House, London

Bespoke Joinery

Hurst manufactures and installs bespoke and batch joinery both to direct clients and main contractors across the UK. With extensive experience in the **commercial, retail, high end residential** and **leisure** business sectors. Hurst has specific project experience in the London area delivering high quality innovative solutions for a number of major **London Contractors.**

Hurst can work with clients and consultants to provide rapid solutions engineered to each client's specific needs. We are well respected for producing quality reception desks, customer service counters, serveries, retail display units, bars, bookcases or any other bespoke joinery item.

Continuous investment in 3D and Auto CAD technology means our in-house **Setting Out** team can bring your ideas and concepts to life with accurate working drawings ready for manufacture. As an **Approved and Certified Fabricator** for solid surface materials including: **Corian, Wilsonart, Staron, HIMACS and Hanex**, Hurst has the capability to manufacture intricate curved fabrications from even the most basic of client sketches.

Hurst operates an ongoing **Apprentice Scheme** employing 2 apprentices on a full time basis throughout their 3 years at college. Mandatory training is also undertaken for all employees including health and safety and specialised training.

Sea Containers House, London

Joinery Manufacture

Joinery Factory
With a 50,0000 sq ft production facility in West Yorkshire and additional manufacturing facilities in Cannock, Derby and Hull. Hurst has the capacity to handle small to large scale projects on a one off or repetitive batch basis.

- Setting Out
Hurst's specialist in-house setting out team will bring your ideas and concepts to life with accurate working drawings ready for manufacture, we have the capability to work with files in Auto Cad® and Revit® (BIM).

- Machine Shop
In-house machinery includes a beam saw, calibrated sander and edge bander. The CNC Router can cut any shape in timber such as bull noses on the edges of desks and formers for curved work. The Multiborer can drill up to 21 holes instantaneously. The Hurst factory also has veneer cutting, stitching and pressing capabilities.

- In-House Polishing Shop
Years of in-house expertise ensures the highest quality of finish for all projects in paint, lacquer or polish.

- Transport
With our own fleet of commercial vehicles, clients in the UK and Europe can rest assured that projects will be delivered on time and in perfect condition.

Alphabeta Building, London

Key Projects

Alphabeta Building

Location: Central London
Main Contractor: Collins Construction
Architect: BDG

Description: Hurst delivered a bespoke joinery package within the landmark Alphabeta building at Finsbury Square, Central London. The Alphabeta building is London's first 'cycle-in office', the cycle ramp takes employees to a basement with bike racks and relaxation facilities.

The project focus was the manufacture and installation of a number of large communication walls incorporating AV screens, white boards, display niches and lockers, plus over 300 individually numbered lockers. The office also features an atrium garden room with decking and picket fence, a reception desk with concrete top, booth seating and preparation kitchens.

Walkie Talkie Building, London

Key Projects

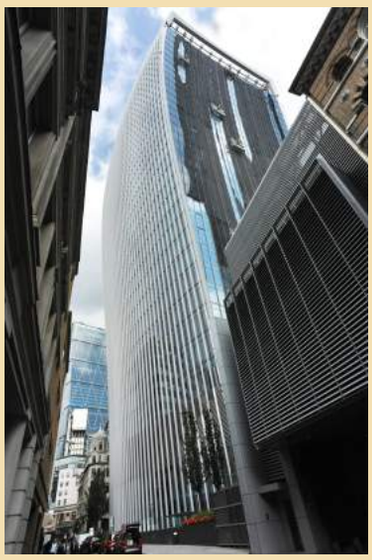
Walkie Talkie Building

Location: Central London
Main Contractor: Parkeray

Description: Manufacture and installation of a bespoke joinery package for the refurbishment of offices on the 29th floor.

The office features a striking bowl shaped reception desk in American oak veneer and visitor/staff lounge bars with oak tops and distinctive black and white tiling. Fully equipped staff welfare areas now include counters with laminate worktops, back painted splash-backs, hard wood lipping and LED strip lighting.

The project also included an oak veneered boardroom credenza unit and quiet study booths with oak desks, sliding doors and oak panelling.



Salesian House, Battersea

Key Projects

Salesian House

Location: Battersea, London
Main Contractor: Rooff Limited

Description

The project included:

- Oak acoustic panels, wall panelling and seating.
- Larch dining room bench.
- New reception and tea points.
- Library bookcases.
- Credenza units.

sea dining

High Performance Doorsets and Solutions

Aynsley Doors is Hurst's specialist door division. We manufacture and supply doors, door sets and performance solutions with a particular focus on the hospitality, leisure, education, workspace and health markets.

All doors and door sets are manufactured to the highest standards of craftsmanship, materials and finish and we are independently audited through the **BM Trada Q-Mark Fire Door Scheme**. Doorsets are available in paint, laminate or natural veneer finishes.

We can supply doors and door sets delivering performance criteria for:

- Fire and smoke leakage control (from FD30's up to FD120's)
- Acoustics up to 42 Rw dB
- Integrated security systems
- Historic replication

Our professional services include:

- Design development and technical advice
- Compliance and build-ability guidance
- Detailed project estimating
- Scheduling
- Site liaison and attendance

We hold chain of custody certification and are fully conversant with the requirements of the current **EU timber regulations**.

Royal Mail Delivery Office, Cambridge

Ceilings and Flooring

Hurst's specialist Ceilings and Flooring division brings in depth expertise in the delivery of:

Suspended Ceilings and Internal Partitioning
Hurst Ceilings can supply and install all types of metal, chilled, exposed and concealed grid mineral fibre, plasterboard M/F ceilings, wall linings and partitioning solutions.

Flooring
Hurst Flooring can supply and install all types of carpet, vinyl, linoleum, rubber, laminate, Amtico, matting and sub floor preparation systems etc. We also have experience in wood and resin installations.

Building Services

Aynsley Building Services is Hurst's specialist building services division providing complete mechanical, electrical and structured cabling packages on all projects. They have a proven track record from working with a host of well-known brands and organisations including **Ikea**, **Yorkshire Building Society** and **Dreams Ltd**.

Operating nationally they offer a **complete engineering service** commencing with an initial meeting to interpret the client's ideas and requirements through to energy surveys and the preparation of design and/or working drawings. This then progresses through expert project management to the installation, final testing and commissioning to contract completion. Following completion 'As Built' drawings, test certificates and operating and maintenance manuals are provided.

Using the latest market leading software they have the in-house capacity, skill and experience to meet and exceed the needs of all clients and their management teams.

Modular Shelving Solutions

H-SYSTEMS
SHOPFITTERS
PART OF THE HURST GROUP

H-Systems supplies modular shelving solutions direct to retailers and shopfitters and are the sole UK importers of the **ZAF** and **MAGO** shelving solutions which deliver quality and maximum flexibility at cost effective prices. H-Systems stocks and distributes both systems throughout the UK from our centrally based Derby warehouse and showroom.

H-Systems dedicated project team will guide you through each step of the process from initial design to on site project management through to completion. Our in house design service brings together specialist expertise and knowledge in the latest product developments, space awareness and store planning. We can therefore deliver inspired solutions to meet the specific needs of individual retail environments.

H-Systems also offers design development, product value engineering, prototyping and manufacture and installation on a one-off or batch basis. We are well respected for producing quality reception desks, customer service counters, cash and wrap desks, food serveries, bars or any other bespoke joinery item.
