Fit out and  
refurbishment of  
learning environments...

## Why you should choose The Hurst Group...

- We understand our education clients face unique challenges in delivering the best learning environments for their students and we can deliver a comprehensive solution to meet your specific requirements. Whether this be the conversion of classrooms to alternative uses i.e. science rooms, fit out of common areas, teaching spaces, libraries or leisure areas.

### Extensive In-House Expertise

- With our own in-house joinery production facility we are able to design and manufacture bespoke joinery items e.g. reception desks, library shelving/storage, laboratory furniture, to produce unique solutions for your needs.

- In addition we can draw upon the expertise of our specialist Ceilings and Floorings division to deliver all types of suspended ceilings, soft floor finishes, floor/wall tiling and internal partitioning solutions.

### Project Delivery

- The Hurst Group have an excellent track record of delivering projects of all sizes, on time and on budget.

- Commitment to the quality of our work and performance irrespective of project size.

- Experience and understanding of the constraints of working within live teaching environments to ensure minimal disruption to staff and students.

- A key focus on site management, cleanliness and security.

Hurst

## Our latest education projects...

### The Hathershaw College Academy Trust

#### Scope of Works

- Refurbishment and fit out of 5 classrooms to new science and library rooms, successfully completed within a live teaching environment.
- Bespoke furniture and shelving delivered to the college's specific requirements.

**Value: £210k**

*"We are completely satisfied with the work by The Hurst Group and would be happy to recommend the company to other Trust's."*  
Mark Giles - Vice Principal Hathershaw College

#### Scope of Works:

- A comprehensive flooring solution including safety flooring, heavy duty carpet tile and an intricate patterned linoleum concept, throughout reception and common areas, teaching and leisure spaces.

**Value: £270k**

#### Scope of Works:

- Manufacture and installation of main reception desk to Business School building.
- The reception desk is faced and topped in solid surface material so no joints are visible.
