

Sustainability Policy Statement

Hurst Group Northern Ltd and its subsidiary companies is a construction company with its head office in Bradford

We recognise that as a responsible company we have a duty to conduct our operations in a manner that will not harm or detriment future generations. As part of our commitment to sustainable construction we will consider the sustainability implications of building materials, construction services and building operations for each project we undertake. We will undertake all construction operations in line with the following targets:

Sustainable consumption and production

- We will use whole-life costing.
- We will reduce our consumption of materials, re-use materials where possible and finally recycle Materials.

Climate change and energy:

- We will minimise carbon emissions during construction works.
- We will reduce staff travel.

Natural resources and enhancing the environment:

- We will minimise and conserve natural resources
- We will proactively create, manage and enhance wildlife habitats and natural landscapes.

Local Resource:

- We will contribute to social and economic regeneration by employing a workforce to operate in an environment of zero accidents and incidents with appropriate arrangements for continual professional and personal development.
- We will respect local people and places, by involving and engaging local communities as part of our corporate social responsibility.

Signed: Mike Hall
