10th October 2013

Dear Sirs,

Re: Hurst Joinery Projects Limited

Bespoke Joinery Package for the Honourable Society of Lincoln's Inn – 2 New Square, London WC2

We were the appointed Architects on the above named project and can confirm that Hurst Joinery Projects Limited were the fit-out joinery subcontractor. Prior to commencement of the project we visited Hurst Joinery's head office site in West Yorkshire and were very impressed with their 60,000 Sq.ft manufacturing facility which includes a state of the art machine shop, polishing shop and dedicated CAD and setting out department.

The Honourable Society of Lincoln's Inn is an active and thriving society of lawyers with a very long history situated in a tranquil enclave of some 11 acres in central London. As well as housing the Society's own facilities, it is the location of many barristers' chambers and some solicitors' offices.

The joinery package was worth £300k and was completed in May 2013.

Hurst Joinery Projects completed the project to our and to our client's highest satisfaction. The joinery package was delivered on time and to an excellent standard of quality. It was an absolute pleasure to work with **Andrew Bryenton, Project Manager** of Hurst Joinery Projects. His level of technical knowledge and ability to handle and resolve any issues quickly and efficiently was very impressive. All other Hurst staff were also extremely helpful, courteous and a pleasure to deal with on a day to day basis.

Their scope of works included the design and manufacture of 32 bookcases in Maple Veneer with Walnut nosing and lipping and 92 Radiator casings with nickel plated grills. The project also included the supply and manufacture of over 150 panelled and primed doors with satin chrome ironmongery.

I would wholly recommend Hurst Joinery Projects Limited for projects of this nature and very much look forward to working with them again in the near future.

Yours sincerely

Perry Lutterodt
