

Client: Mitsubishi Motors UK.
Location: intu Lakeside, Essex

Scope of Works:

Hurst created an innovative new Mitsubishi Rockar Showroom. The project included:

- Full strip out including dropping of all ceilings, uplifting of floors, removal of dividing walls and damp repair remedial works.
- New sprinkler and fire alarm systems.
- New acoustic ceilings, MF ceiling rafts, Unibox panels, LED display panels and high level smoke barrier.
- Installation of new resin floor with pebble tile feature.
- New integral roller shutter.
- New wall linings with clay render finish.
- Forming of back of house areas including a consultation room, staff room and an accessible toilet.

Hurst Joinery manufactured and installed all joinery elements including:

- Solid oak feature beams on perimeter walls.
- Large oak browser table where customers can compare models, colours and finance options using touch screens.
- Feature oak beam ceiling raft, metal plant hanging systems.
- Oak totems and slatted divider screen.
- Credenza unit.
