Brief

Hurst was awarded the Westfield Café Court furniture contract following an invitation to review and refine the detailing from phase one.

With extensive experience in bespoke joinery and furniture solutions, Hurst was tasked with finalising the design, supply, manufacture, and delivery of all new banquette seating, perimeter high tables, and loose tables using high-quality and durable materials such as brass, leather, and solid surfaces.

Challenges

Consideration for cleaning regimes – furniture had to accommodate efficient, safe, and hygienic maintenance, particularly for high-traffic shopping centre environments.

Simplified maintenance and repairs – seating components needed to be easily removable and replaceable to minimise downtime and upkeep costs.

Seamless wireless charging integration – a solution was required to provide convenient charging access while preventing potential maintenance issues from spills.

Result

By working closely with Westfield's management and operational teams, Hurst successfully delivered high-quality, durable, and functional furniture tailored to the demands of a high-traffic shopping centre environment.

Integrated lighting and technology enhanced the space, providing both practicality for customers, whilst consideration for cleaning and maintenance regimes ensured smooth management of operations.

Solution

Hurst manufactured and delivered a package of bespoke furniture to meet the quality and functional specification required by the client.

Sharp mitred brass edges were replaced with folded corners and welded cappings for easy cleaning.

Banquette cushions were standardised to three sizes (600mm, 700mm, 800mm) for quick, cost-effective replacement.

Wireless charging docks were discreetly integrated beneath Corian surfaces, preventing spill damage and minimising maintenance.

Joinery Elements

- » Bespoke fixed, modular banquette seating with integrated lighting and power supply.
- » Bespoke perimeter high tables with corian work surfaces and integrated wireless charging docks
- » Three standardised seating cushion sizes for easy replacement: 600mm, 700mm and 800mm
- » Brass detailing on plinths with folded corners and welded cappings
- » Easy-clean, blue, faux-leather upholstery
